COMPANY

Alusafe Ltd is the mother company of a group of companies based in Mauritius, Reunion and Madagascar, seen today as a leading distributor of Safety / security equipment, architectural aluminium and its associated accessories.

Alusafe Ltd is the authorised exclusive distributor of the following companies in the region:

Elvey Security, IMCI (Services) Ltd, C-Tec, Southwest Microwave Inc, CBC Europe, SEWOSY MALAYSIA SDN. BHD. ootzt.pt, TEKNIM ELEKTRONIK A.S., COFRA, VENITEX, PANOPLY, SPASCIANI, SIOEN and Goliath Footwear

HEADQUARTERS

The Group has recently moved to its new 3,800 sqm headquarters in May 2012 at La Joliette Lane, Petite Riviere, Mauritius.

COMPANY ROOTS

Alusafe Ltd, our first company, was launched on the 8th of August in 2003 by his Excellency the South African High Commissioner Mr. Vledimeli and Lord Mayor of Quatre Bornes Mr R.K. Srekeesoon. Alusafe Ltd quickly established itself as the sole representative for Elvey Security Technologies in the region.

The group of companies has grown organically and has gradually got involved in more industries to constitute a group of companies that can now cater for your security, protective clothing, transport, excavation, demolition, freeport activities and architectural aluminium needs. This rapid expansion is in line with the group’s vision to diversify and enter multiple industries.

Our expertise covers a wide spectrum of technologies in multiple industries and we strive at excelling and setting trends wherever and whenever we are involved.

GLOBAL SCOPE

Alusafe Ltd serves customers in 3 different countries through its sister companies Alusafe Intercontinent Ltee in Réunion island and Alusafe International in Madagascar. Our customer base consists of businesses who install electronic security equipment, CCTV, Access control, companies doing monitoring, various
building and civil engineering contractors as well as leading hotel and food industry groups.

Our equipment may be seen in the Bank of Mauritius, Mauritius Port Authority, Barclays Bank, Mauritius Commercial Bank, the Nehru Hospital and major hotel resorts such as Ephelia Resort in Seychelles which is currently the biggest 5 Star hotel in the Indian Ocean, various Mauritian Prisons, Cyber City buildings, Emtel buildings, and Mauritius Police Stations & Headquarters just to mention a few key players in our economy.

Alusafe Ltd has built its business by developing personal partnerships with its customers. We are committed to assisting customers worldwide with their unique needs by providing them with comprehensive, value added professional solutions, personal service to meet the ever changing demands of their respective field of technologies and markets.

Alusafe Ltd considers that knowledge and skill is key to providing the service our customers aspire to receive. This is why we work closely with our suppliers to get all our staff in whichever department or country to be constantly trained on new / existing products and practices.

**BUSINESS UNITS**

**Safety and Security**
Alusafe Ltd aims at providing its client base with the best equipment available for intrusion detection, fire alarm, CCTV, Guard Patrolling, Access control / time attendance and networking. Alusafe Ltd is currently the market leader for the security industry in the region.

**Protective Clothing**
Our protective clothing division was launched in August 2009 with a range of safety footwear from some of Europes leading providers of safety and occupational footwear as well as protective clothing for the modern working environment. With over 400 years of experience combined in the industry, our main suppliers, are now attending to the needs of the NATO forces, the military, and numerous other companies.

**Manufacturing**
Alusafe Group finally launched it’s state of the art **powder coating** factory in its new **3,800 sqm** headquarters in May 2012. The new factory trading under the name of Alusafe Manufacturing Industry Ltd, based in Petite Riviere, Mauritius aims at offering colour and a **10 - 25 + years warranty** on architectural aluminium profiles for windows and doors as well as bespoke powder coating services to adjacent industries.

**Architectural Aluminium**
Through Alu-Distribution Ltd, our sister company, we have been distributing aluminium profiles and Accessories for 7 years and steadily growing to become one of the major players in the region. Our superior quality profiles are imported from one of the most famous manufacturers in China and are tailored to meet the needs of the markets in the various countries we operate in.

**Transport and Excavation**
Alusafe Ltd recognises the need for more reliable and trustworthy trucking services and can transport

You’d think this Blast Helmet was designed especially for you!
Place your head inside a Nova™ Helmet and try the comfort. You’ll notice the fully padded pillow foam that provides support and comfort. And when you turn your head, the helmet moves with you.

Enjoy safer and clearer vision
Excellent wide vision without annoying sideglare. The double lens system ensures safety from flying objects.

You can breathe easily
The even air distribution throughout the helmet ensures a comfortable and pleasant working environment.

Enjoy the Quiet
You’ll enjoy wearing a helmet with inbuilt acoustic properties that reduces outside ear piercing noises to a minimum.

The Nova™ Blast Helmet has been designed to provide comfort and convenience to Blasting operators. The internals of the helmet are easily removed for inspection and cleaning and reattach via a velcro fastening system.

Different size internal foam head domes and side wings are available to suit operators head size requirements.

The Nova™ is approved and certified to the rigorous requirements of AS/NZ, OSHA, NIOSH and CE Standards.

Breathing Air Filter
Compressed Air Filters remove particles, odors and oil from helmet air supply. Easy to change disposable cartridge.

Radex Carbon Monoxide Alarm
Continuously monitors the breathing air for deadly CO.

Operator Safety Equipment
To keep you more comfortable and less fatigued

Blast Helmet
This comfortable air fed helmet gives the operator excellent wide vision while keeping weight on the head and neck to a minimum. Large tough cape protects body from abrasive rebound.

Blasting Gloves
Tough leather Blasting gloves with cotton lining for comfort protect operators hands and lower arms.

Blasting Suit
These Protective Overalls are made with heavy duty leather to withstand the rigors of blasting. The back is breathable heavy duty cotton to keep operator cool and assist in movement.

Blaster’s Boots
Tough, hard wearing boots especially designed for the harsh blasting environment. Fitted with special TPU Exterior Toe Caps to withstand abrasive blasting strikes.
SCBA & EEBD

RN MK2 TYPE 1 INDUSTRIAL

DESCRIPTION:
The RN MK2 are self contained breathing apparatus whose duration depends on the capacity of the cylinder mounted: 3 or 6 litre 300 bar steel or 6,8 or 9 litre 300 bar composite cylinders. RN MK2 can be supplied with mask and demand valve type A (EN148-3) or with mask and demand valve type BN (snap in connector DIN 58600 and threaded connector EN148-1 for filters). This breathing apparatus Type 1 is ideal for maintenance interventions in chemical plants, to work in very polluted environments or in oxygen deficiency.

RN MK2 TYPE 2 FIREFIGHTERS

DESCRIPTION:
The RN MK2 are self contained breathing apparatus whose duration depends on the capacity of the cylinder mounted: 3 or 6 litre 300 bar steel or 6,8 or 9 litre 300 bar composite cylinders. RN MK2 can be supplied with mask and demand valve type A (EN148-3) or with mask and demand valve type BN (snap in connector DIN 58600 and threaded connector EN148-1 for filters). The breathing apparatus type 2 is ideal for fire brigades and rescue teams for fire fighting and activities in extremely polluted environments.

EEBD - EMERGENCY ESCAPE

DESCRIPTION:
The SK120 is a open circuit breathing apparatus with hood. It is to be used in emergency escape situations in all the potentially dangerous environments because of the presence of fumes or low level of oxygen. It is designed to create a constant air flow of 15 minutes.
LEISURE RANGE: HIKING/TREKKING
